

CURRICULUM VITAE

I. PERSONNEL INFORMATION

NAME: Madi LINGLINGUE
DATE/PLACE OF BIRTH: 09/08/1971 in OUAGADOUGOU
NATIONALITY: Burkinabé
MARITAL STATUS: Single
ADDRESS: P.O Box: 01 BP 1659 Ouagadougou 01
Mobile: (00226)70264490 / (00227) 90 50 56 99
E-mail: madilin2@yahoo.fr

II. EDUCATION

- **2009: Master degree in Integrated Water Resources Management** (AGRHYMET, Niamey)
- **1996: *Master's degree in Geology*** (University of Ouagadougou, Burkina Faso)
- **1995: *Bachelor's degree in geology*** (University of Ouagadougou, Burkina Faso)
- **1994: *D.E.U.G II*** (University of Ouagadougou, Burkina Faso)
- **1991: *High School Science and Mathematics diploma*** (Diaba LOMPO High School)

III. PROFESSIONNAL TRAINING

- ***September 1996, BILITON METALS BV:*** Map compilation and RC logging in Larafella (Birrimian terrain, Poura district).
- ***July 1996, ORSTOM (now IRD):*** Geological and geomorphological mapping in Bilamperga area (Birimian terrains)
- ***May 1996, CHANNEL Resources Ltd.:*** Regional soil geochemistry in Korsimoro area (Birimian terrains)
- ***May 1995, University of Ouagadougou:*** Geophysics training using Electric, VLF, and MaxMin methods.

IV. WORK EXPERIENCE

- **April 2007 to October 2008: SOS Monde Rural (local NGO):** intervention in socio-économique area on behalf of Essakane gold mine stakeholders communities through capacity building of famers and implementation of a school farm
- **January to Mars 2007, OREZONE: exploration senior geologist:** geological mapping, trenching on Houndé and Boromo birrimian terrains, Burkina Faso
- **January 2005 to December 2006: BARRICK Exploration Africa Ltd.: senior geologist**

I worked both as a geologist and project geologist on Clastic sediments terrains South of Mali and on Birrimian terrains of Houndé belt in Burkina Faso, through grass root to target delineation stages. I was involved in design, implementation and supervision of programs, including data processing and reports writing

- **August to October 2004: Consultant**

I lead the Project of senzitisation, education and improvement of mercury use technique over 11 selected artisanal mining sites in Burkina Faso. Work completed:

- senzitisation of miners on mercury hazards on health and on the environment
- Demonstrations and training miners to retort use

- **January 2001 to July 2004, GEOMAN CONSULT/TEAMS: junior consultant**

Through the component D (Small Scale and Artisanal Mining) of **PRECAGEME** (a World Bank funded project), I intervened in the projects:

A. « Improvement of artisanal mining »

I had in charge the geological assessment of artisanal mining sites; I was also involved in the Socio-economic and environmental baseline evaluations.

B. « Feasibility Study and setting of pilote plants »

I was involved in project development.

- **November 1996 to December 2000, SEMAFO Minéral S.A: junior geologist**

SEMAFO held more than 18 properties on Birrimian terrains in Burkina Faso. I worked both as junior geologist and geologist, through grass root to target delineation stages. I intervened in program design and execution, including data processing and report writing

V. MISCELANEOUS

Language proficiency: fluent in Mooré, French and English

Computer skills: training in Microsoft Office 2003 softwares, knowledge of data processing softwares (Surfer, ArcView, MapInfo)

Skills in preparation and presentations on workshops

Driving licence

First aid certificate
